

KAF SUKUK FUND

SEMI-ANNUAL REPORT

28 FEBRUARY 2026

MANAGER'S REPORT

We are pleased to present the Manager's semi-annual report for the financial period ended 28 February 2026 ("the period").

1. Launch Date

KAF Sukuk Fund ("KSF/the Fund") commenced operations on 1 November 2013 and will continue its operations until terminated according to the Deed dated 25 September 2013, Supplemental Deed dated 19 March 2014, Second Supplemental Deed dated 12 March 2015, Third Supplemental Deed dated 20 August 2018 and Fourth Supplemental Deed dated 9 January 2023.

2. Type of Fund

Growth Fund.

3. Category of Fund

Sukuk.

4. Fund's Objective, Benchmark and Distribution Policy

KSF seeks to achieve capital growth in the medium to long-term by investing primarily in sukuk.

The Fund will invest primarily in sukuk with a minimum short-term credit rating of P2 by RAM and MARC2 by MARC or long-term credit rating of A3 by RAM and A- by MARC or an equivalent rating by any other recognised foreign credit rating agency; and/or sukuk issued or guaranteed by issuers or guarantors with a minimum short-term credit rating of P2 by RAM or MARC2 by MARC or a long-term credit rating of A3 by RAM or A- by MARC or an equivalent rating by any other recognised foreign credit rating agencies.

KSF's asset allocation is subject to a minimum of 70% of NAV exposure in sukuk and a maximum of 30% of NAV in either Islamic collective investment schemes, Islamic deposits or Islamic money market instruments.

The benchmark for the Fund is the RAM-Quant MGS Index (All Durations).

As the Fund's objective is to provide capital growth, the Manager does not intend to distribute income.

MANAGER'S REPORT

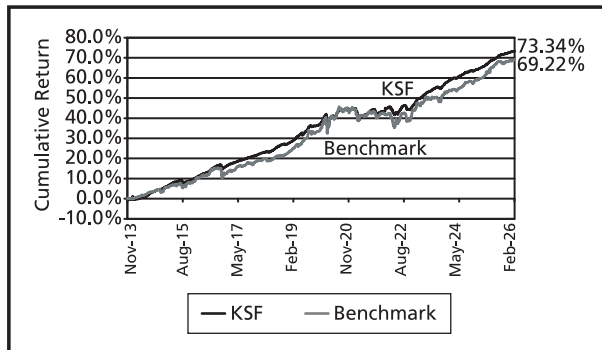

5. Review of Fund Operations and Performance

For the financial period ended 28 February 2026, KSF recorded a return of 1.28% based on Time Weighted Rate of Return against its stipulated benchmark, which recorded a return of 0.65%. The outperformance was attributable to strategic portfolio positioning and effective execution of the Fund's investment strategy.

Since its inception, KSF recorded a return of 73.34% and outperformed its benchmark, which recorded 69.22%.

No cross-trade transaction carried out during the reported period ended 28 February 2026. The Fund has not undertaken any securities lending or repurchase transaction for the reported period.

For the six months period, the Fund ranked at No. 21 out of 62 funds in the Islamic Bond Fund category by Lipper Asia Limited.

KSF's total realised income amounted to RM3.23 million, arising from Islamic deposits, profit earned and after accounting for gain on disposal of unquoted sukuk.

The Fund's NAV increased to RM138.10 million from RM134.04 million as at 31 August 2025 as a result of inflows. The NAV per unit of the Fund increased to RM173.4715 as at 28 February 2026 compared to RM171.2752 as of 31 August 2025 due to positive performance recorded during the period under review.

As at the end of the financial period under review, unrealised gain stood at RM3.85 million.

Past performance is not necessarily indicative of future performance.

6. Asset Allocation and Investment Strategies

For the period under review, KSF's asset allocation was in unquoted sukuk and Islamic deposits. The exposure to unquoted sukuk slightly increased, in line with the strategy of achieving a stable rate of return with steady income. As at 28 February 2026, the Fund's exposure to unquoted sukuk was at an aggregate of 92.96%.

Other than the investment strategy stated in the Replacement Master Prospectus dated 30 September 2023, the designated Fund Manager has not employed any other investment strategy.

There were no significant changes in the Fund's state of affairs during the period.

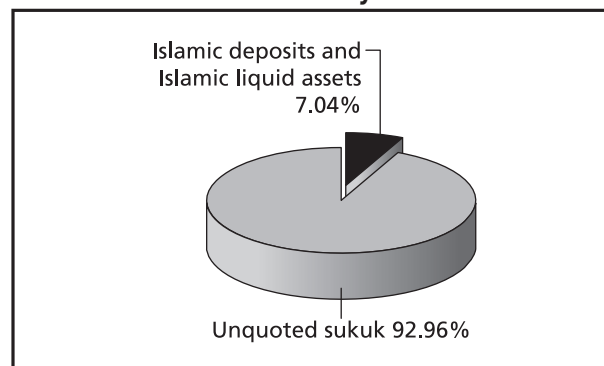

There were no circumstances which could materially affect any interest of the unit holders.

7. Market Review

The period in review ended with Malaysia's exports grew by 19.6% while imports increased by 5.3% Year-on-Year ("YoY") in January. The trade surplus increased to MYR21.4 billion in January, up from MYR19.3 billion in the previous month (December). Malaysia's Consumer Price Index ("CPI") was flat at 1.60% YoY in January compared to 1.60% in December.

Malaysian foreign reserves increased in February to USD127.9 billion from USD125.6 billion in January. Meanwhile, Malaysia's Purchasing Managers' Index ("PMI") was flat at 49.3 in February compared to 50.2 in the previous month.

United States ("US") Treasury yields were lower in February with the Treasury 2-year, 5-year and 10-year benchmark yield closing the month at 3.37%, 3.50% and 3.94% respectively compared to 3.52%, 3.79% and 4.24% in January.

Malaysian Government Securities ("MGS") 3-year, 5-year and 10-year yield were flat, ending at 3.03%, 3.31% and 3.48% in February compared to 2.99%, 3.27% and 3.50% in the previous month.

MANAGER'S REPORT

8. Market Outlook and Strategy

Global bond markets had a strong month in February as the "higher for longer" interest rate narrative faded after a wave of Risk Off sentiment emerged as fears of Artificial Intelligence ("AI") disrupting entire industries swept through global markets. The sharp selloff in precious metals at the end of January also helped re-secure the safe haven status of fixed-income and channeled the capital back into bonds. US Treasuries rallied strongly throughout February and the 10-year Treasury note closed the month at 3.94%. Major US economic data in February pointed to the economy continuing to be resilient whilst US inflation continues to remain stubbornly above the US Federal Reserve's 2% target. Nonetheless, market participants continue to be hopeful of further rate cuts in 2026 with most investors anticipating 2 or 3 cuts in the second half of the year.

Malaysian bonds traded in a narrow range throughout February but had a small rally in tandem with their global peers although bond prices were unable to breakout of the recent range. The local economy continues to remain on firm footing hence the odds of further rate cuts by Bank Negara Malaysia this year remains low unless there is a significant protracted external shock. The three (3) government auctions during the month were well supported amid the positive sentiment namely the 10-year MGS 07/2035, 20-year Government Investment Issue ("GII") 05/2045 and 5-year 06/2031 minted Bid-to-Cover ratios of 1.603x, 2.896x and 2.921x respectively.

The present challenge for Malaysian Fixed-Income continues to be generating a solid return amid the low yield environment. We have positioned the portfolio to mitigate the risks amid high uncertainty in 2026. We also continue to look for opportunities to buy quality assets at attractive prices while maintaining our conservative stance of medium portfolio duration and an emphasis on high credit quality.

MANAGER'S REPORT

9. Changes made to the Fund's Prospectus

There were no changes made to the Fund's prospectus during the reported period.

10. Soft Commission

The Manager had received a soft commission (in the form of goods and services) during the period under review, which intended to bring direct benefit or advantage to the management of KSF from one broker/dealer by virtue of transactions conducted for KSF. The broker/dealer had also executed trades for other funds or investments managed by the Manager.

The soft commission received is in the form of research services that can add value to the investment process by analysing data to extract insights and arrive at meaningful conclusions. Such data assists the Manager in the investment decision-making process which is of demonstrable benefit to unit holders of KSF and other funds or investments managed by the Manager.

The soft commissions received were for the benefit of the Fund, and there was no churning of trades.

KEY PERFORMANCE DATA

Basis of calculation and assumption made in calculating the returns:

The performance figures are a comparison of the growth/decline in NAV for the stipulated period taking into account all the distribution payable (if any) during the stipulated period.

An illustration of the above would be as follow:

Capital return = NAV per Unit end / NAV per Unit begin - 1

Income return = Income distribution per Unit / NAV per Unit ex-date

Total return = (1+Capital return) x (1+Income return) - 1

Portfolio Turnover Ratio ("PTR")	0.09 times	0.35 times	0.38 times

Note: Total Expense Ratio ("TER") is calculated by taking the total fees and recovered expenses incurred by the Fund divided by the average fund size. Portfolio Turnover Ratio ("PTR") is calculated by taking the average of the acquisition and disposal of the Fund divided by the average fund size.

The TER was higher than the previous periods due to overall decrease in the average NAV (refer to Note 14).

PTR was lower than the previous periods due to decrease in portfolio rebalancing activities undertaken by the Fund (refer to Note 15).

Past performance is not necessarily indicative of future performance. Unit prices and investment returns may go down, as well as up.

SUMMARY OF MATERIAL ACCOUNTING POLICIES

FOR THE FINANCIAL PERIOD ENDED 28 FEBRUARY 2026

The following accounting policies have been used in dealing with items which are considered material in relation to the financial statements.

A BASIS OF PREPARATION OF THE FINANCIAL STATEMENTS

The financial statements have been prepared in accordance with the provisions of the Malaysian Financial Reporting Standards ("MFRS") and International Financial Reporting Standards ("IFRS").

The financial statements have been prepared under the historical cost convention, as modified by the revaluation of financial assets at fair value through profit or loss.

The preparation of financial statements in conformity with MFRS and IFRS requires the use of certain critical accounting estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenues and expenses during the reported financial year. It also requires the Manager to exercise their judgement in the process of applying the Fund's accounting policies. Although these estimates and judgement are based on the Manager's best knowledge of current events and actions, actual results may differ.

Estimates and judgements are continually evaluated by the Manager and are based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances.

The areas involving a higher degree of judgement or complexity, or areas where assumptions and estimates are significant to the financial statements are disclosed in Note I.

SUMMARY OF MATERIAL ACCOUNTING POLICIES

FOR THE FINANCIAL PERIOD ENDED 28 FEBRUARY 2026

A BASIS OF PREPARATION OF THE FINANCIAL STATEMENTS (CONT'D)

(a) Standards, amendments to published standards and interpretations that are effective

- Amendments to MFRS 9 and MFRS 7 'Amendments to the Classification and Measurement of Financial Instruments' (effective 1 January 2026).
 - The amendments clarify that financial assets are derecognised when the rights to the cash flows expire or when the asset is transferred, and financial liabilities are derecognised at the settlement date (i.e. when the liability is extinguished or qualifies for derecognition);
 - There is an optional exception to derecognise a financial liability at a date earlier than the settlement date if the cash transfer takes place through an electronic payment system, provided that all the specified criteria are met;
 - The amendments also clarify and add further guidance for assessing whether a financial asset meets the solely payments of principal and interest ("SPPI") criterion;
 - There are additional new disclosures for certain instruments with contractual terms that can change cash flows (such as some financial instruments with features linked to the achievement of environment, social and governance targets); and
 - The amendments update the disclosures for equity instruments designated at fair value through other comprehensive income ("FVOCI").

SUMMARY OF MATERIAL ACCOUNTING POLICIES

FOR THE FINANCIAL PERIOD ENDED 28 FEBRUARY 2026

A BASIS OF PREPARATION OF THE FINANCIAL STATEMENTS (CONT'D)

(b) Standards and amendments that have been issued that are applicable to the Fund but not yet effective

- MFRS 18 'Presentation and Disclosure in Financial Statements' (effective 1 January 2027) replaces MFRS 101 'Presentation of Financial Statements'.
 - The new MFRS introduces a new structure of profit or loss statement.
- (a) Income and expenses are classified into 3 new main categories:
 - (i) Operating category which typically includes results from the main business activities;
 - (ii) Investing category that presents the results of investments in associates and joint ventures and other assets that generate a return largely independently of other resources; and
 - (iii) Financing category that presents income and expenses from financing liabilities.
- (b) Entities are required to present two new specified subtotals: 'Operating profit or loss' and 'Profit or loss before financing and income taxes'.
 - Management-defined performance measures are disclosed in a single note and reconciled to the most similar specified subtotal.
 - Changes to the guidance on aggregation and disaggregation which focus on grouping items based on their shared characteristics.

SUMMARY OF MATERIAL ACCOUNTING POLICIES

FOR THE FINANCIAL PERIOD ENDED 28 FEBRUARY 2026

A BASIS OF PREPARATION OF THE FINANCIAL STATEMENTS (CONT'D)

(b) Standards and amendments that have been issued that are applicable to the Fund but not yet effective (cont'd)

The Fund is currently still assessing the effect of the above standards and amendments. No other new standards or amendments to standards are expected to have a material effect on the financial statements of the Fund.

B INCOME RECOGNITION

Profit income from Islamic deposits with licensed financial institutions and unquoted sukuk are recognised using the effective profit rate method on an accrual basis.

Profit income is calculated by applying the effective profit rate to the gross carrying amount of a financial asset except for financial assets that subsequently become credit-impaired. For credit-impaired financial assets, the effective profit rate is applied to the net carrying amount of the financial asset (after deduction of the loss allowance).

Realised gains or losses on sale of Shariah-compliant investments are accounted for as the difference between the net disposal proceeds and the carrying amount of the Shariah-compliant investments, which is determined on cost adjusted for accretion of discount or amortisation of premium.

C TAXATION

Current tax expense is determined according to the Malaysian tax laws at the current rate based upon the taxable profits earned during the financial year.

SUMMARY OF MATERIAL ACCOUNTING POLICIES

FOR THE FINANCIAL PERIOD ENDED 28 FEBRUARY 2026

D FUNCTIONAL AND PRESENTATION CURRENCY

Items included in the financial statements of the Fund are measured using the currency of the primary economic environment in which the Fund operates (the “functional currency”). The financial statements are presented in Ringgit Malaysia (“RM”), which is the Fund’s functional and presentation currency.

E FINANCIAL ASSETS AND FINANCIAL LIABILITIES

(i) Classification

The Fund classifies its financial assets in the following measurement categories:

- those to be measured at fair value through profit or loss; and
- those to be measured at amortised cost.

The Fund classifies its Shariah-compliant investments based on both the Fund’s business model for managing those financial assets and the contractual cash flow characteristics of the financial assets. The portfolio of financial assets is managed and performance is evaluated on a fair value basis. The Fund is primarily focused on fair value information and uses that information to assess the assets’ performance and to make decisions.

The contractual cash flows of the Fund’s unquoted sukuk are solely principal and profit. However, these Shariah-compliant securities are neither held for the purpose of collecting contractual cash flows nor held both for collecting contractual cash flows and for sale. The collection of contractual cash flows is only incidental to achieving the Fund’s business model’s objective. Consequently, all Shariah-compliant investments are measured at fair value through profit or loss.

The Fund classifies cash and cash equivalents and amount due from Manager - creation of units as financial assets at amortised cost as these financial assets are held to collect contractual cash flows consisting of the amount outstanding.

E FINANCIAL ASSETS AND FINANCIAL LIABILITIES (CONT’D)

(i) Classification (cont’d)

The Fund classifies amount due to Manager, amount due to Trustee and other payables and accruals as financial liabilities at amortised cost.

(ii) Recognition and measurement

Regular purchases and sales of financial assets are recognised on the trade-date, the date on which the Fund commits to purchase or sell the asset. Shariah-compliant investments are initially recognised at fair value.

Financial liabilities, within the scope of MFRS 9 are recognised in the statement of financial position when, and only when, the Fund becomes a party to the contractual provisions of the financial instrument.

Financial assets are derecognised when the rights to receive cash flows from the Shariah-compliant investments have expired or have been transferred and the Fund has transferred substantially all risks and rewards of ownership.

Financial liabilities are derecognised when it is extinguished, i.e. when the obligation specified in the contract is discharged or cancelled or expired.

Unquoted sukuk are revalued to reflect its fair value on a daily basis based on fair value prices quoted by a bond pricing agency (“BPA”) registered with the Securities Commission Malaysia (“SC”) as per the SC’s Guidelines on Unit Trust Funds. Where such quotations are not available or where the Manager is of the view that the price quoted by the BPA for a specific unquoted sukuk differs from the market price by more than 20 basis points, the Manager may use the market price, provided that the Manager records its basis for using a non-BPA price, obtains necessary internal approvals to use the non-BPA price, and keeps an audit trail of all decisions and basis for adopting the use of non-BPA price.

E FINANCIAL ASSETS AND FINANCIAL LIABILITIES (CONT'D)

(ii) Recognition and measurement (cont'd)

Gains or losses arising from changes in the fair value of the 'financial assets at fair value through profit or loss' category are presented in the statement of comprehensive income within net gain/(loss) on financial assets at fair value through profit or loss in the period in which they arise.

Islamic deposits with licensed financial institutions are stated at cost plus accrued profit income calculated using the effective profit rate method over the period from the date of placement to the date of maturity of the respective Islamic deposits.

Financial assets at amortised cost and other financial liabilities are subsequently carried at amortised cost using the effective profit rate method.

(iii) Impairment for assets carried at amortised cost

The Fund measures credit risk and expected credit losses using probability of default, exposure at default and loss given default. Management considers both historical analysis and forward-looking information in determining any expected credit loss. Management considers the probability of default to be close to zero as these instruments have a low risk of default and the counterparties have a strong capacity to meet their contractual obligations in the near term. As a result, no loss allowance has been recognised based on 12-month and lifetime expected credit losses as any such impairment would be wholly insignificant to the Fund.

Significant increase in credit risk

A significant increase in credit risk is defined by management as any contractual payment which is more than 30 days past due.

E FINANCIAL ASSETS AND FINANCIAL LIABILITIES (CONT'D)

(iii) Impairment for assets carried at amortised cost (cont'd)

Definition of default and credit-impaired financial assets

The Fund defines a financial instrument as default, which is fully aligned with the definition of credit-impaired, when it meets one or more of the following criteria:

Quantitative criteria:

Any contractual payment which is more than 90 days past due is considered credit impaired.

Qualitative criteria:

The obligor meets unlikelihood to pay criteria, which indicates the obligor is in significant financial difficulty. The Fund considers the following instances:

- the obligor is in breach of financial covenants;
- concessions have been made by the creditor relating to the obligor's financial difficulty;
- it is becoming probable that the obligor will enter bankruptcy or other financial reorganisation; and
- the obligor is insolvent.

Financial instruments that are credit-impaired are assessed on an individual basis.

SUMMARY OF MATERIAL ACCOUNTING POLICIES

FOR THE FINANCIAL PERIOD ENDED 28 FEBRUARY 2026

E FINANCIAL ASSETS AND FINANCIAL LIABILITIES (CONT'D)

(iii) Impairment for assets carried at amortised cost (cont'd)

Write-off

The Fund writes off financial assets, in whole or in part, when it has exhausted all practical recovery efforts and has concluded there is no reasonable expectation of recovery. The assessment of no reasonable expectation of recovery is based on unavailability of obligor's sources of income or assets to generate sufficient future cash flows to pay the amount. The Fund may write off financial assets that are still subject to enforcement activity. Subsequent recoveries of amounts previously written off will result in impairment gains. There were no write-offs/recoveries during the financial year.

F CASH AND CASH EQUIVALENTS

For the purpose of statement of cash flows, cash and cash equivalents comprise cash at bank and Islamic deposit with a licensed financial institution with original maturities of 3 months or less that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value.

G CREATION AND CANCELLATION OF UNITS

The Fund issues cancellable units, which are cancelled at the unit holder's option and are classified as equity. Cancellable units can be put back to the Fund at any time for cash equal to a proportionate share of the Fund's NAV. The outstanding units are carried at the redemption amount that is payable as at the date of the statement of financial position if the unit holder exercises the right to put the units back to the Fund.

SUMMARY OF MATERIAL ACCOUNTING POLICIES

FOR THE FINANCIAL PERIOD ENDED 28 FEBRUARY 2026

G CREATION AND CANCELLATION OF UNITS (CONT'D)

Units are created and cancelled at the unit holder's option at prices based on the Fund's NAV per unit at the time of creation or cancellation. The Fund's NAV per unit is calculated by dividing the net assets attributable to unit holders with the total number of outstanding units.

H UNIT HOLDERS' CAPITAL

The unit holders' capital to the Fund meets the definition of puttable instruments classified as equity instruments under the MFRS 132 'Financial Instruments: Presentation'. Those criteria include:

- the units entitle the unit holders to a proportionate share of the Fund's NAV;
- the units are the most subordinated class and class features are identical;
- there is no contractual obligations to deliver cash or another financial asset other than the obligation on the Fund to repurchase; and
- the total expected cash flows from the units in the Fund over its life are based substantially on the profit or loss of the Fund.

The outstanding units are carried at the redemption amount that is payable at each financial year if a unit holder exercises the right to put the unit back to the Fund.

SUMMARY OF MATERIAL ACCOUNTING POLICIES

FOR THE FINANCIAL PERIOD ENDED 28 FEBRUARY 2026

I CRITICAL ACCOUNTING ESTIMATES AND JUDGEMENT IN APPLYING ACCOUNTING POLICIES

The Fund makes estimates and assumptions concerning the future. The resulting accounting estimates will, by definition, rarely equal the related actual results. To enhance the information contents on the estimates, certain key variables that are anticipated to have material impact to the Fund's results and financial position are tested for sensitivity to changes in the underlying parameters.

Estimates and judgements are continually evaluated by the Manager and are based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances.

However, the Manager is of the opinion that there are no accounting policies which require significant judgement to be exercised.

In undertaking any of the Fund's investment, the Manager will ensure that all assets of the Fund under management will be valued appropriately, that is at fair value and in compliance with the Securities Commission Malaysia's ("SC") Guidelines on Unit Trust Funds.

NOTES TO THE FINANCIAL STATEMENTS

FOR THE FINANCIAL PERIOD ENDED 28 FEBRUARY 2026

1. THE FUND, THE MANAGER AND THEIR PRINCIPAL ACTIVITIES

KAF Sukuk Fund (hereinafter referred to as "the Fund") was constituted pursuant to the execution of a Deed dated 25 September 2013 (hereinafter referred to as "the Deed") between the previous manager, KAF Fund Management Sdn Bhd and the previous trustee, HSBC (Malaysia) Trustee Berhad. With the issuance of the Supplemental Deed dated 19 March 2014, the previous manager, KAF Fund Management Sdn Bhd has been changed to KAF Investment Funds Berhad ("the Manager"). The Deed was further modified by the Second Supplemental Deed dated 12 March 2015 and in the Third Supplemental Deed dated 20 August 2018, the previous trustee, HSBC (Malaysia) Trustee Berhad has been changed to CIMB Islamic Trustee Berhad ("the Trustee"). The Deed was further modified by the Fourth Supplemental Deed dated 9 January 2023. The Deed and the Supplemental Deeds issued regarding the Fund are collectively referred to as "the Deeds".

The principal activity of the Fund is to invest in "Permitted Investments" as set out in the Seventh Schedule of the Deed, which includes sukuk, short-term Islamic money market instruments and any other form of Shariah-compliant investments that comply with Shariah requirements as may be approved by the relevant authorities from time to time. The Fund commenced operations on 1 November 2013 and will continue its operation until terminated by the Trustee as provided under Part 12 of the Deed. The Fund aims to generate regular income for unit holders by investing primarily in Islamic deposits, Islamic money market instruments and sukuk.

All Shariah-compliant investments will be subject to the SC's Guidelines and the Deeds, except where exemptions and variations have been approved by the SC, internal policies and procedures and the Fund's objective.

The Manager, KAF Investment Funds Berhad, is incorporated in Malaysia. Its principal activities are the management of unit trusts funds and provision of fund management.

The principal place of business of the Manager is located at Level 13, Menara IQ, Lingkaran TRX, Tun Razak Exchange, 55188 Kuala Lumpur.

All current liabilities are financial liabilities which are carried at amortised cost.

The Fund is exposed to a variety of risks which include market risk (including price risk and interest rate risk), liquidity risk, credit risk and Shariah status reclassification risk from its financial instruments.

NOTES TO THE FINANCIAL STATEMENTS

FOR THE FINANCIAL PERIOD ENDED 28 FEBRUARY 2026

2. FINANCIAL INSTRUMENTS, RISK MANAGEMENT OBJECTIVES AND POLICIES (CONT'D)

Financial risk management is carried out through internal control processes adopted by the Manager and adherence to the Shariah-compliant investment restrictions as stipulated in the Replacement Master Prospectus and the SC's Guidelines on Unit Trust Funds.

Market risk

(a) Price risk

The Fund is exposed to price risk because of the Shariah-compliant investments held by the Fund and classified at fair value through profit or loss. Price risk is the risk that the fair value of a Shariah-compliant investment will fluctuate because of changes in market prices (other than those arising from interest rate risk). Such fluctuation may cause the Fund's NAV and price of units to fall as well as rise and income produced by the Fund may also fluctuate. The price risk is managed through diversification and selection of Shariah-compliant securities and other Shariah-compliant financial instruments within specified limits according to the Deed.

The table below shows the financial assets of the Fund as at 28 February which are exposed to price risk:

	2026 RM	2025 RM
Shariah-compliant investment		
Unquoted sukuk at fair value through profit or loss*	<u>128,377,078</u>	<u>144,378,877</u>

Market risk (cont'd)

(a) Price risk (cont'd)

The following table summarises the sensitivity of the Fund's Shariah-compliant investments to price risk movements as at 28 February. The analysis is based on the assumptions that the market price increased and decreased by 5% (2025: 5%) with all other variables held constant and that fair value of the Fund's Shariah-compliant investments moves according to the historical correlation of the index. Disclosures below are shown in absolute terms, changes and impacts could be positive or negative.

---	-------	------------------

(b) Interest rate risk

Interest rate risk is the risk that the value of the Fund will fluctuate because of changes in market interest rates.

The Fund's exposure to the interest rate risk is mainly confined to short-term Islamic deposit with a licensed financial institution. Interest rate risk is actively managed by duration targeting based on the interest rate outlook. The Manager overcomes the exposure of short-term Islamic deposit by way of maintaining Islamic deposit on a short-term basis.

(b) Interest rate risk (cont'd)

The above interest rate is a general economic indicator that will have an impact on the management of the Fund regardless whether it is an Islamic unit trust fund or otherwise. It does not in any way suggest that the Fund will invest in conventional financial instruments. All the investments are carried out for the Fund are in accordance with Shariah requirements.

The table below summarises the sensitivity of the Fund's NAV to movements in valuation of unquoted sukuk held by the Fund as a result of movement in interest rate. The analysis is based on the assumptions that the interest rate increased and decreased by 5% (2025: 5%) with all other variables held constant. This represents management's best estimate of a reasonable possible shift in the interest rate, having regard to the historical volatility of the interest rate.

Unquoted sukuk	4.02	4.11	3,627	2,487
Islamic deposit with a licensed financial institution	2.85	3.05	2	4

Liquidity risk

Liquidity risk is the risk that the Fund will encounter difficulties in meeting its financial obligations. The Manager manages this risk by maintaining sufficient levels of Islamic liquid assets to meet anticipated payment and cancellations of unit by unit holders. Islamic liquid assets comprise cash at bank, Islamic deposit with a licensed financial institution and other Shariah-compliant instruments, which are capable of being converted into cash within 7 days.

The table below analyses the Fund's financial liabilities into relevant maturity groupings based on the remaining period at the statement of financial position date to the contractual maturity date.

2. FINANCIAL INSTRUMENTS, RISK MANAGEMENT OBJECTIVES AND POLICIES (CONT'D)

Credit risk

Credit risk refers to the inability of an issuer or counterparty to make timely payments of profit, principals and proceeds from realisation of Shariah-compliant investments. The Manager manages the credit risk by undertaking credit evaluation to minimise such risk.

Credit risk arising from unquoted sukuk can be managed by performing continuous fundamental credit research and analysis to ascertain the creditworthiness of its issuer. In addition, the Manager imposes a minimum rating requirement as rated by either local and/or foreign rating agencies and manages the duration of the Shariah-compliant investments in accordance with the objective of the Fund.

Credit risk arising from placements in Islamic deposit with a licensed financial institution is managed by ensuring that the Fund will only place Islamic deposits in reputable licensed financial institutions.

The settlement terms of the proceeds from the creation of units receivable from the Manager are governed by the SC's Guidelines on Unit Trust Funds.

The maximum exposure to credit risk before any credit enhancements is the carrying amount of the financial assets as set out below:

	2026 RM	2025 RM
Cash and cash equivalents	9,897,734	12,765,012

NOTES TO THE FINANCIAL STATEMENTS

FOR THE FINANCIAL PERIOD ENDED 28 FEBRUARY 2026

2. FINANCIAL INSTRUMENTS, RISK MANAGEMENT OBJECTIVES AND POLICIES (CONT'D)

Shariah status reclassification risk

This risk refers to the risk of a possibility that the currently held sukuk or Islamic money market instruments or Islamic deposits invested by the Fund may be declared as Shariah non-compliant by the relevant authority or the Shariah Adviser. If this occurs, the Manager will take the necessary steps to dispose of or withdraw such fixed income securities or money market instruments or deposits.

Capital risk

The capital of the Fund is represented by equity consisting of unit holders' capital and retained earnings. The amount of the equity can change significantly on a daily basis as the Fund is subject to daily subscriptions and redemptions at the discretion of unit holders. The Fund's objective when managing capital is to safeguard the Fund's ability to continue as a going concern in order to provide returns for unit holders and benefits for other stakeholders and to maintain a strong capital base to support the development of the Shariah-compliant investment activities of the Fund.

Fair value estimation

Financial instruments comprise financial assets and financial liabilities. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (i.e. exit price).

The fair value of financial assets traded in active market (such as publicly traded Shariah-compliant securities) are based on quoted market prices at the close of trading on the financial year end date.

An active market is a market in which transactions for the assets and liabilities take place with sufficient frequency and volume to provide pricing information on an ongoing basis.

The fair value of financial assets that are not traded in an active market is determined by using valuation techniques.

NOTES TO THE FINANCIAL STATEMENTS

FOR THE FINANCIAL PERIOD ENDED 28 FEBRUARY 2026

2. FINANCIAL INSTRUMENTS, RISK MANAGEMENT OBJECTIVES AND POLICIES (CONT'D)

Fair value estimation (cont'd)

The carrying values of cash and cash equivalents, amount due from Manager - creation of units and all current liabilities are reasonable approximation of their fair values due to their short-term nature.

Fair value hierarchy

The Fund classifies fair value measurements using a fair value hierarchy that reflects the significance of the inputs used in making the measurements. The fair value hierarchy has the following levels:

- Quoted prices (unadjusted) in active market for identical assets or liabilities (Level 1).
- Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (that is, as prices) or indirectly (that is, derived from prices) (Level 2).
- Inputs for the asset and liability that are not based on observable market data (that is, unobservable inputs) (Level 3).

The level in the fair value hierarchy within which the fair value measurement is categorised in its entirety is determined on the basis of the lowest level input that is significant to the fair value measurement in its entirety. For this purpose, the significance of an input is assessed against the fair value measurement in its entirety. If a fair value measurement uses observable inputs that require significant adjustment based on unobservable inputs, that measurement is a Level 3 measurement. Assessing the significance of a particular input to the fair value measurement in its entirety requires judgement, considering factors specific to the asset or liability.

The determination of what constitutes 'observable' requires significant judgement by the Fund. The Fund considers observable data to be that market data that is readily available, regularly distributed or updated, reliable and verifiable, not proprietary and provided by independent sources that are actively involved in the relevant market.

Financial instruments that are traded in markets that are not considered to be active but are valued based on quoted market prices, dealer quotations or alternative pricing sources supported by observable input are classified within Level 2. These include unquoted sukuk. As Level 2 instruments include positions that are not traded in active markets and/or are subject to transfer restrictions, valuations may be adjusted to reflect illiquidity and/or non-transferability, which are generally based on available market information.

The Fund's policies on valuation of these financial assets are stated in Note E.

3. MANAGER'S FEE

Clause 13.1.2 of the Deed dated 25 September 2013 and Supplemental Deed dated 19 March 2014 provide that the Manager is entitled to an annual management fee at a rate not exceeding 1.00% per annum based on the Fund's NAV on a daily basis before deducting the Manager's and Trustee's fees for that particular day.

The Manager's fee provided in the financial statements is computed on this basis at a rate of 0.40% (2025: 0.40%) per annum.

There will be no further liability to the Manager in respect of Manager's fee other than amounts recognised in the financial statements.

4. TRUSTEE'S FEE

Clause 4.8 of the Third Supplemental Deed dated 20 August 2018 provides that the Trustee is entitled to an annual trustee fee at a rate not exceeding 0.10% per annum based on the Fund's NAV on a daily basis before deducting the Manager's and Trustee's fees calculated for that particular day or subject to a minimum of RM12,000 per annum.

The Trustee's fee provided in the financial statements is computed on this basis at a rate of 0.05% (2025: 0.05%) per annum or at the minimum of RM12,000 per annum.

There will be no further liability to the Trustee in respect of Trustee's fee other than the amounts recognised in the financial statements.
